

Bikes Create Community (BCC) Leadership Council members, composed of approximately 40 community leaders, serve as ambassadors to amplify the Bike Library's network. The BCC Steering Committee's working goal is to raise \$1,000,000. The Board of Directors, Ad Hoc Committees, and Staff manage campaign projects. Together we are creating one-of-a-kind resources that will empower residents to make bicycling a primary form of transportation in our community, and so much more.
